Structured weakening of Indonesia's Anticorruption Commission (KPK)

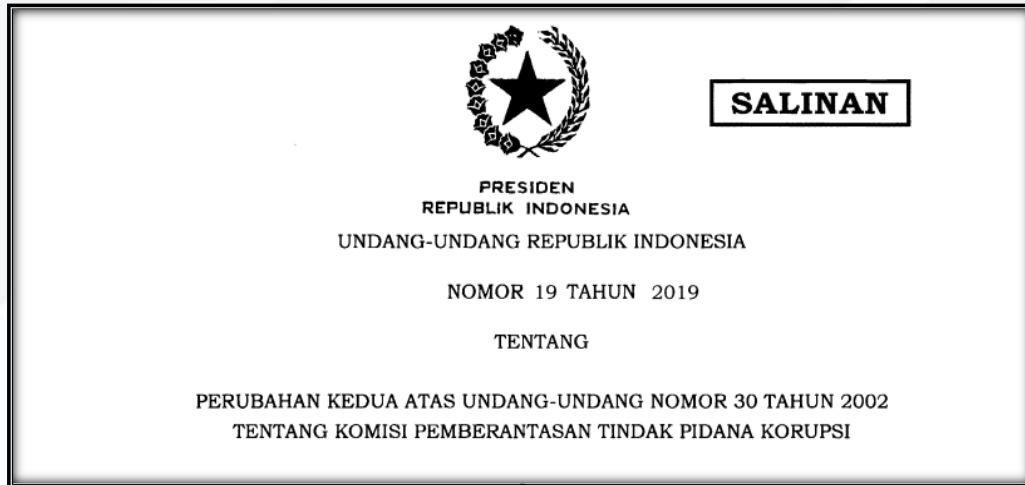

Available on: <https://www.integritylaw.id/buku/>

Through the KPK Law revision, Government and DPR allegedly worked together to weaken KPK

Legislative assault on KPK

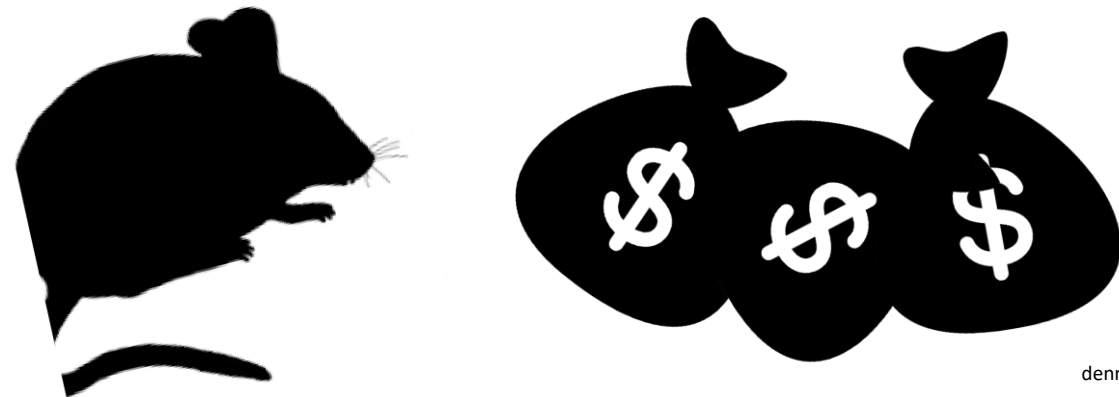

- **KPK identifies 26 weakening points on the Revision Law Number 19/2019**
- **President Jokowi stands on two legs, does not sign the Law even he allegedly took part in the collusion**

KPK IS DEAD!

1. KPK employees under executive branch (not an independent body anymore)
2. KPK chairpersons are no longer the highest in charge;
3. KPK Supervisory Board: wiretapping permit; search permit; confiscation permit; double positions permission; no prohibition against meeting suspects
4. Corruption cases that attracts public attention are no longer the KPK's authority
5. Must discuss with the prosecutor's office in terms of prosecution
6. KPK employees become civil servants
7. Supervisory authority is reduced due to the deletion of articles that regulate the authority of the KPK to carry out supervision, research, or review of agencies that carry out their duties and authority over public services

Constitutional Moment

Golden Moment to make or amend the Constitution

John Elster

Times of crises that invite extraordinary and dramatic measures

Is Covid-19 Pandemic the right moment?

FACT

There is an economic crisis

FACT

There is no socio-political crisis

ROOT PROBLEM

The root of the problem is pandemic, not Constitution

QUESTION

If there is a socio-political demand for constitutional amendments, for whose interests?

Clue: Pay attention to the change plan

Presidential Term

BEFORE AMENDMENT	➔	AFTER AMENDMENT
------------------	---	-----------------

Without limitation	➔	With limitation
--------------------	---	-----------------

Undemocratic	➔	Democratic
--------------	---	------------

Tim Lindsey, *"more than any other, this amendment was a clear statement of political transition from authoritarianism"*

Arendt Lijphart

3 concepts of presidential term:

1. no re-election
2. no immediate re -election); and
3. only one re-election.

Other 2 presidential term concepts

No Limitation Term
(Indonesia's New Order
Era, before amendment).

More Than One Re-election.

No Re-Election

- One term only, 6 years.
Section 4: The President shall not be eligible for any re-election.
- Based on misfortune experience of Ferdinand Marcos' iron-hand administration. Now his son is just elected.
- There is always the temptation to amend this “No Re-Election” clause, but it still failed.

THE PHILIPPINES

No Immediate Re-Election

No limitation concept but is not allowed to be directly re-elected.

2010 Dominican Constitution stipulates:

“The Executive Power is exercised by the [masculine or feminine] President of the Republic, who will be elected every four years by direct vote without being able to be elected for the following constitutional period”.

To avoid the sitting president to lose his focus on building the country as to prepare for the next election

PERU

NIKARAGUA

R. DOMINIKA

Only One Re-Election

Article II Section 1 of the United States Constitution provides for a person to be president for a term of 4 years, with no maximum term limit.

Indonesia

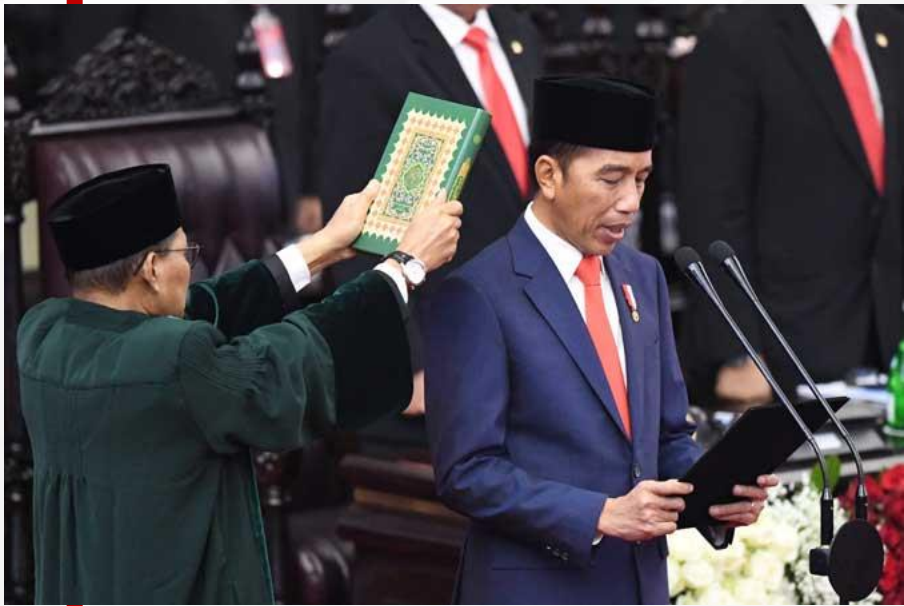

After amendment

Amerika Serikat

In 1951, through the 22th amendment, limitation to only 2 terms was applied

No person shall be elected to the office of the President more than twice, and no person who has held the office of President, or acted as President, for more than two years of a term to which some other person was elected President shall be elected to the office of President more than once...

3rd term of Jokowi Presidency?

- New Concept: More than one re-election.
- Never applied to president as head of government (chief of executive), different if the president is only a symbol of the head of state (chief of state)
- Whose interests?
- Only 3 terms or more than that?
- How's the PDI-Perjuangan position?
- How's the political party coalition position??
